Language skills

Spanish

Speaking competence: Intermediate, **Written competence:** Intermediate

English

Speaking competence: Intermediate, **Written competence:** Intermediate

Various

Nature's lover

Extremely keen on the animals since I was very young, I like visiting zoos, natural parks, nature reserves, aquariums... even if I prefer to observe animals in the wild, in all their magnificence.

I like doing long walks and hikes.

My dream is to go to Kenya to do a photographic safari.

Music enthusiast.

Music fills an important place in my life. I played piano for 6 ans, then I stopped because of my studies. But music missed me so I'm curenly learning how to play guitar.

Fervent reader

From the poetry to the novels, my thirst for reading never is satisfied.

Hugo's or Balzac's works delight me as much as Harry Potter.

Reading take us away in a kind of parallel univers, where nothing has limits, certainly not the imagination.

Books are a great source of culture and amusement, I definitely can't do without them.
