Apprentice Business School

I'm looking for an apprentice job (=1 week at school for 3 weeks at work, each month) in the event organisation (B2B or for private) and largely in the communication.

Proud of my experience in the communication: as well in the media (TVC Production for Peugeot) as in the event (Wedding Planner for Alchimie Originelle), I have a high level and general education in business (ESC Rouen). I'm really adjustable and involved at work.

Feel free to contact me for further information about internship with apprentice and my experience.
