Student of Cognitive Science with Entrepreneurial and General Management background

My current goal is to gain more experience in education and/or neuroscience research geared toward my studies at Boston University. By the Fall of 2010, I would like to be starting a Ph.D program at Boston University that integrates [Cognitive Science & Psychology, Artificial Intelligence, Foreign Languages, Language Modeling, Machine Learning Algorithms, and Computational Lexicography.]

I am in my 1st year of the Master-of-Science in Computer Science at Boston University and looking for work opportunities in a university setting with an adjunct role/or TA opportunity.
