French supply chain engineer

After working as a production and procurement planner for Peugeot Motorcycles in Jinan (Shandong province, China), I am now willing to take new challenges joining a supply chain position in Hong Kong.

My education (graduated from a French engineering school), interpersonal skills and analytical thinking, together with my double culture (born and raised in France from cantonese parents) are the key assets I want to bring to my new company.

Work experience

March 2009
July 2010
